

The clean energy sector
is looking East for growth... **Are you?**

Asia Cleantech Gateway (ACG) is dedicated to bringing together clean energy technology companies and users in the Asia Pacific region with their counterparts in the West.

Building international connections is not an easy task. We can help.

The energy challenges that the world faces do not recognize national borders, and we believe that neither should businesses that are working towards energy solutions.

For this reason, ACG has launched a free online networking platform where cleantech companies can promote their services, make connections and find new clients and partners wherever they are in the world.

If your company is in the solar or hydrogen fuel cell supply chains, we invite you to join the Cleantech Meeting Space!

ASIA CLEANTECH GATEWAY
Networking. Market intelligence. Business development.

What are the benefits?

Free to join

The Cleantech Meeting Space is a free tool for you to use to develop your East-West networking and market knowledge.

Bridge cleantech divides

Join an active, online platform of other members of the cleantech community.

Increase your visibility

Create and manage your own online company profile and enable potential customers to see your capabilities

Drive your publicity machine

Submit unlimited press releases for publication on the site through your personal admin panel. Our website is visited by cleantech industry people in over 60 countries, so you will be noticed.

Target your B2B activities

Search the Meeting Space and find clients or partners wherever they are in the world.

Be open to business

We'll send you business proposals from other Meeting Space members for your specific consideration.

Stay informed

Receive a monthly newsletter covering the latest APAC cleantech developments Meeting Space member activities.

Upgrade to Full Membership

Subscribe to Full Membership and benefit from tailored native language introductions to your target companies, our Lead Generation Service, and permanent homepage logo presence.

Who should join?

Any company involved in the solar or hydrogen fuel cell industries, wherever you are based.

Our members span the whole supply chains for these industries, from manufacturing to end-users, as well as supporting sectors such as consulting, financial services, trade associations and governmental agencies.

We will soon be adding the wind and smart grid sectors to the Meeting Space.

Cleantech markets are broad and deep, and our membership reflects this.

Unsure about APAC exposure?

The Cleantech Meetings Space tools work equally well no matter where you are from or where your geographical business goals lie.

Although we work hard to bring in APAC region companies together onto an English language online platform, there is no reason at all not to use the tool for more local business development!

It is your networking platform, please use it as you see fit.

What does it look like?

Meeting Space homepage and Member Admin Panel...

The screenshot displays the ASIA Cleantech Gateway website interface. At the top, the logo for ASIA Cleantech Gateway is shown, along with the tagline 'APAC Region Market Intelligence & Business Development'. A navigation menu includes links for Home, About, Services, News, Contact, Meeting Space, and Logout. A blue banner below the navigation reads 'Welcome Mike Hugh to the ACG Cleantech Meeting Space'. The main content area is titled 'Your Membership Level: Basic Member' and features three columns of information:

- Welcome:** A column with two bullet points explaining that users can browse Meeting Space member profiles and use the Member Admin Panel to update their profile, submit a press release, or send a suggestion.
- Upgrade Membership:** A column listing benefits such as 'Greatly improved search', 'Permanent homepage logo presence', 'Lead Generation Service', and 'Commission native language tailored introductions to target companies', with a 'Find out more' button.
- Member Admin Panel:** A column with buttons for 'Edit company information', 'Edit contact information', 'Edit product information', 'Edit fuel cell information', 'Edit solar information', 'Submit news', and 'Make a suggestion'.

Below this section, a heading reads 'Search company profiles by technology:'. This is followed by four technology categories, each with an image and a search button:

- Solar Power (5 members):** Includes an image of solar panels and a 'Search' button.
- H2 & Fuel Cells (15 members):** Includes an image of fuel cell stacks and a 'Search' button.
- Smart Grid (Coming Soon):** Includes an image of a power line tower and a 'Coming Soon' button.
- Wind Power (Coming Soon):** Includes an image of a wind turbine and a 'Coming Soon' button.

Setting your search filters...

The screenshot shows the ASIA Cleantech Gateway website interface. At the top, there is a navigation menu with links for Home, About, Services, News, Contact, Meeting Space, and Logout. Below the navigation is a blue banner with the text "Meeting Space - H2 + Fuel Cells". Underneath the banner is a "Search Tips" section with four bullet points. The main content area is titled "Choose your search filters" and contains several filter categories: Country (a dropdown menu), System type (checkboxes for PEMFC, SOFC, MCFC, DMFC, PAFC, and AFC / hydrazine Fuel Cell), and Application (checkboxes for various categories like Education / schools, Consumer electronics, Portable, Personal transport, Light duty transport, Heavy duty transport, Marine, Distributed power, and Power generation). A "View All" button is located at the bottom right of the filter section.

Search Tips

- Our full search allows you to specifically search our Meeting Space for a company that has your distinctive requirements.
- All terms selected below are directly matched to companies in the Meeting Space. For example, if 3 terms are selected below and a company in our database only has 2 of these, it will not be listed in the results.
- The more companies you would like to view, the fewer search filters you should apply. To search for a very specific type of company, apply more search filters accordingly.
- If you would like to see all companies in the Meeting Space, click the View All button without applying any search filters.

Choose your search filters

Company information

Asia Cleantech Gateway (ACG) is positioned at the East-West crossroads of the global clean energy technology industry, helping companies in the West achieve their business goals in the Asia Pacific region. The various energy challenges that the world faces do not recognize national boundaries, and we believe that neither should the businesses that are working to provide energy solutions.

In recent years Asia has emerged as a bright new frontier for cleantech markets. To help both East and West work more effectively together, we are a sector-specialized, multilingual, APAC-located but Western-oriented company providing networking, market intelligence and business development services.
